## AWARDS

## PERSONAL INFO

- Date of birth: 11 May 2005
- Place of birth: Madurai

## PROFESSIONAL SUMMARY

Highly skilled and experienced Java Developer with over 5 years of experience in designing, developing, and implementing complex software solutions for various industries. Proven track record of delivering high-quality code and exceeding project expectations within strict deadlines. My biggest achievement includes successfully leading a team of developers to deliver a critical project for a Fortune 500 company, resulting in increased efficiency and cost savings. Possess strong analytical skills and attention to detail, which enables me to identify and resolve technical issues efficiently. Proficient in Java, J2EE, Spring Framework, and other programming languages. Excellent communication skills and the ability to work collaboratively with cross-functional teams make me an asset to any organization.

## EXPERIENCE

### Data analytics

Fresher, India, Arakkonam

June 2021 - Now

During my time at Fresher, India as a Data Analytics professional, I worked on various projects and gained valuable experience in data analysis and interpretation. I was responsible for analyzing large datasets and providing insights to improve business strategies. My role also involved collaborating with cross-functional teams to identify data-driven solutions.

- Conducted data mining and analysis to identify trends
- Developed dashboards and visualizations for key stakeholders
- Utilized statistical techniques to analyze customer behavior
- Implemented machine learning algorithms for predictive modeling

## EDUCATION

Bachelor of Science (BS), University of gandhi, I dia, Madurai

2016 - 2019

A Bachelor of Computer Science (BSc CS) is a degree that focuses on computing, programming, and software development. It typically covers subjects like:

Programming Languages (Java, Python, C++)

Data Structures & Algorithms

Databases & SQL

Computer Networks

Operating Systems

Software Engineering

Artificial Intelligence & Machine Learning (optional)

Cybersecurity (optional)

Graduates can pursue careers as software developers, data analysts, cybersecurity experts, or AI engineers. The degree provides strong problem-solving and analytical skills.
